3M Marine

Hookit Fairing Board System

3M Marine Hookit Fairing Boards are designed for fairing shaping, sanding and finishing boats, plugs and moulds.

The rigid fairing board can be used for large flat areas such as free board and deck areas.

The flexible fairing board is for concave and convex curved areas such as hulls.

Specifically developed Hookit sheets are available to be used with 3M Fairing Boards or self made larger boards (by applying Hookit Facing Material Board).

Hand Block

70mm x 125mm	3M/5519
--------------	---------

3M 734 Wet and Dry Paper

For total wet flattening and sanding sequences of fairing compound, epoxy and marine paints.

Hand Blocks are ideal for use with wet & dry paper when a flat surface is required to support the abrasive paper, but the area being abraded requires the care of manual sanding

260 L - Finishing Film

P graded finishing abrasives reduce working steps generating uniform and perfect finishes (available P600 to P1500).

Use with Perfect-It Polish (PN 09548) for gelcoat finishing and an excellent finish will be achieved: the system allows reduction in sanding operations as well as compounding steps.

3M 266L - Finishing Film

Micron graded film abrasives reduce working steps; generating uniform and perfect finishes, equivalent to P2500 dry sanding material.

Use with Finesse-it Liquid (PN 3M/09369) which will allow you to rapidly remove scratches from acrylic windows and portholes bringing back their original transparency.

N.B. Available in Hookfit form only-interface pads available to convert your Dual Action sander to sticky-backed style.

3M CS-D Scotch-Brite Clean'n Strip

Stripping paint from metal surfaces, inspecting welds, removing coatings and preparing surfaces for re-coating cleaning and general maintenance.

3M Clean & Finishing Scotch-Brite Hand Pads

When surfaces need to be cleaned, scuffed or finished by hand or machine, Scotch-Brite hand pads outperform steel wool, wire brushes and other non-woven hand pads.

Scotch-Brite hand pads will never rust and can be used in the presence of water or solvents.

Saint-Gobain Norton

Norton Multi-Air Norgrip Discs

new premium aluminium oxide grain discs backed with a flexible fibre reinforced latex paper, offering superior tear resistance and 181 holes to dramatically maximise dust removal. The waterbased No-Fil® resists clogging during use.

Norton Multi-Air Soft Touch Discs

Discs that allow a more sensitive application of abrasives.

Norton Multi-Air Backing pads

Designed to draw dust into a collecting chamber for better extraction.

Norton No-Fil Abrasive Rolls

These rolls are given a special surface treatment to increase resistance to loading when sanding. These professional grade rolls are super for fine finishing especially for varnish.

Norton No-Fil Abrasive Sheets

These sheets are given a special surface treatment to increase resistance to loading when sanding soft or tacky materials liable to clog the paper, resulting in the sheet yielding a longer life span when subjected to these applications. These sheets are ideal for use on varnish.

Norton Fibre Discs

Fibre discs are designed for coarse abrasion to surfaces. These are a general purpose resin bonded disc with exceptional life expectancy.

Norton Zirconia Fibre Discs

Zirconia is a very sharp abrasive material, which makes these fibre discs last while maintaining their cutting edge.

Norton Blue Zirconia DA Discs

Self sharpening DA disc that's ideal for abrading GRP.

Norton Rotolo Abrasive Roll

Pre-cut foam backed abrasive on a roll, suitable for use on all contoured surfaces. Avoids low spots. Uses A295/A275 grits, P240-P1000.

Flexi-Pads Dual Action Sander Backing Pads
