Mini boom	Dia.7.5cm x 360cm	11.25 Litres	3M/T12
Multi format	12cm x 1520cm	39.6 Litres	3M/TF2001

Oil Sorbents help contain and control potentially dangerous spills of oil and petrol, but repel water! 3M sorbents go to work immediately, so there is less exposure to you and others, as well as less risk to the environment. 3M sorbents are available in different sizes and forms to suit your needs. Booms are available for long term deployment in ditches, rivers, docks and bilges.

Powered air & supplied air respirators are available. Please ring to discuss your requirements

MIS Products

Disposable Latex Gloves

Very competitively priced, these gloves are lightly powdered with a rolled cuff. They provide an excellent protection barrier when handling products such as resins. Ambidextrous and comfortable.

Reusable Gloves Yellow in colour and ideal where latex gloves are just not man enough for the job. Individually packed in pairs, these can be sold to retail customers, as well as being tough enough for yard and commercial use.

Premier Nitrile Glove

& Powder Free Latex The powder free glove reduces the risk of product contamination and contains no protein. Ambidextrous and comfortable. The nitrile gloves are also powder free but avoid the problems of latex allergies. More resistant to solvents than straight latex and offer better puncture and abrasion resistance than vinyl and natural rubber. Nitrile gloves are a distinctive blue colour for identification.
